RITHIKA

Software Engineer • Full-Stack Developer

rithika0182006@gmail.com | linkedin.com/in/rithika-ss | github.com/Rithi0186 | leetcode.com/u/rithika0186

SUMMARY

Electronics & Communication Engineering student building toward a software engineering career. Hands-on experience shipping full-stack web applications, AI-powered products, and freelance client websites. Strengthening DSA, Java, OOP, Operating Systems, Computer Networks, and resilient backend development.

EDUCATION

Dr. Mahalingam College of Engineering and Technology 2024 – 2028
B.E. Electronics & Communication Engineering (ACT) **CGPA: 8.75 / 10.0**
Senthil Public School • CBSE Curriculum Class XII: 89% | Class X: 96%

TECHNICAL SKILLS

Languages: Java (strongest), C, JavaScript, TypeScript, Python
Web & UI: React, Vite, Tailwind CSS, Bootstrap, HTML5, CSS3, REST APIs, Framer Motion
Databases: MySQL, PostgreSQL, Supabase
Tools: Git, GitHub, VS Code, Vercel, Canva, AI-assisted development tools
Fundamentals: Data Structures & Algorithms, OOP, Operating Systems, Computer Networks, Spring Boot

PROJECTS

EcoVibe | *React, Vite, Tailwind CSS, Supabase, PostgreSQL, Recharts* Live | GitHub
- Full-stack campus sustainability platform combining carbon footprint tracking, what-if scenarios, eco-challenges, rewards marketplace, and community engagement.
- Engineered frontend UI/UX, database integration, app business logic, and visual impact analytics using Recharts.

PregnaCare | *React, TypeScript, PostgreSQL, Google Gemini API* Live | GitHub
- Bilingual (English/Tamil) maternal-support web application featuring AI guidance, weekly pregnancy tracking, vital logging, document vault, and emergency SOS with live GPS.
- Architected full application structure, Gemini LLM prompt pipelines, and database-backed authentication.

DigiAura | *React, Vite, JavaScript, CSS* GitHub
- Digital agency platform for small businesses with tier packages, portfolio galleries, interactive category filtering, and direct WhatsApp lead conversion.

SkinAssist | *Python, LLM API, Prompt Engineering* GitHub
- Conversational AI skincare advisory assistant built with LLM API orchestration and ingredient analysis.

RegPalm Study (Research Project) | *Python, OpenCV, PyTorch, NumPy* Ongoing
- Studying and re-implementing open-set palmprint recognition pipeline: image preprocessing, ROI extraction, CLAHE contrast enhancement, and biometric feature extraction.

EXPERIENCE & LEADERSHIP

Freelance Web & Design Developer Independent • 2024 – Present
- Designed and shipped live production websites and creatives for local businesses, including Velvet Boutique on Vercel.

Spectrum (ECE Association), Dr. MCET 2025 – 2027
- **Elected Office Bearer (2025–26):** Coordinated departmental technical, coding, and AI events, workshops, and student outreach.
- **Report & Editing Coordinator (2026–27):** Direct official documentation and technical symposium reports.

Campus Ambassador, Gidy 2026
- Promoted internships, workshops, and technical opportunities to fellow engineering students.

ACHIEVEMENTS & HONORS

- **1st Prize:** Prompt Engineering Contest • SECE (THIRAN 2026)
- **2nd Prize:** Hackathon / TechnoFete, Poster Presentation (Dr. MCET), AI Content Creation (SECE), AI Movie Making
- **3rd Prize:** Paper Presentation • Dr. MCET (NEXORA '26)
- Participated in 10+ national-level hackathons and technical symposiums.

CERTIFICATIONS

NPTEL: Joy of Learning Python (Elite) • Business Fundamentals for Entrepreneurs (85%) | **Simplilearn:** SQL Database Management | **Udemy:** Java Software Programming | **Bytes to Bite:** Computer Networks
